SUMMARY OF ST. LOUIS MARKETS.

Weather was the all-important factor in yesterday's trading in wheat. It was the crop-saver's golden opportunity and he made the most of it. If "The Beautiful Snow" was not written by a wheat bear, it might have been. A few feathery flakes at this time of year are always potent to send the chinch bug, the Hessian fly and other insects of the genus private-wireana vulgaris into temporary retirement. Snow, in the lexicon of the pit trader, is Nature's chest protector. They just can't get it up in the morning after a storm like that of Saturday night. Enthusiastic shorts can hear the tender little shoots shooting under their white blanket, and its back to the toboggan for the active options. Yesterday several of the longs who have been credited with heavy purchases of late took advantage of the chance to ease their lines. WE ARE WHERE THE GOLD IS

In Thunder Mountain District

And the gold is there in quantities to astonish the world. The Liberty Gold Mining Co. owns seven claims in the Big Cryck District and 146 acres on Thunder Mountain and Rainbow, close to the famous Dewey Mines. The officers and directors of the Liberty Gold Mining Co. are bank officials, business men and practical miners, and they now have a force of men developing their property in the Big Creek District. The directors have decided to offer a small quantity of stock

AT 5 CENTS PER SHARE

(par value \$1.60), fully paid and nonassessable. This offer is open for a limited time, and for a limited amount of shares only, and as soon as this allotment is sold the prices will be advanced at least 160 per cent.

Do you know that such eminent mining experts as Rutan, Hollister, Bassett and Bemett are staking their reputation on the Thunder Mountain District, and when they indorse and put their money in it, it is certainly worth investigating. The Liberty Gold Mining Co. is in the heart of the field, with seven claims in the Big Creek that show assays taken from surface ore as much as 536 per ton.

The officers and directors of the Liberty Gold Mining Co. are all favorably known to the business world. They are as follows:

B. F. OLDEN, President.

(President of the Bank of Commerce, Bolse, Idaho.)

D. I. FORSYTH, Pirst Vice President.

(Ass't. Supt. of Transportation Wabash Ry., St. Louis, Mo.)

J. W. GROUNDS, Second Vice President.

(Mine Owner and Capitalist, Joplin and Carthage, Mo.)

J. W. MASON, Secretary and Treasurer. (Capitalist, St. Louis, Mo.)

H. E. NEAL. Cashier of the Capital State Bank, Bolse, Idaho.)

G. W. WHEATON, General Superintendent. (Mining Engineer.)

The sales of stock at the remarkably low PRICE OF 5c PER SHARE have been very large, and the amount alicated to be sold at that price will soon be exhausted. We therefore suggest that if you are interested that you write or call immediately for prospectus and any further information.

The stock is WORTH NOW 10c per share, based upon the holdings of the company, but the directors are taking THIS MEANS AND METHOD of drawing the attention of the public quickly to their property and to the wealth of the Thunder Mountain District.
